

Management of Risk (M_o_R®) Foundation Online

M_o_R is a route map for risk management. It brings together principles, an approach, a set of interrelated processes and pointers to more detailed sources of advice on risk management techniques and specialisms. It provides advice on how the principles, approach, and processes should be embedded, reviewed and applied differently depending on the nature of the objectives at risk. M_o_R is informed and aligned with the international standard ISO 31000:2009. The M_o_R Foundation digital course covers all aspects of the M_o_R guidance using voice-over, animation and activities.

The main body of the course consists of ten sessions which covers the:

- ✓ Principle
- ✓ Approach
- ✓ Processes
- ✓ Embedding & reviewing
- ✓ Perspectives of the Management of Risk guidance

The course also looks at Risk Health Checks, the Management of Risk Maturity Model and Risk Management Speciality.

BENEFITS

Successful completion of the M_o_R digital course will lead to improved understanding of:

- ✓ Better management of unplanned threats and opportunities
- ✓ Improved service delivery
